SUMMARY

Data-driven Finance and Operations professional and CPA with 10+ years of experience in financial planning, cost analysis, and performance optimization across large-scale global operations. Proven ability to analyze complex datasets, build scalable reporting processes, and deliver actionable insights to improve operational efficiency and business performance. Experienced in cross-functional collaboration across Operations, Supply Chain, and Finance, with strong focus on automation, KPI tracking, and process improvement.

SKILLS

- **Finance**: CAPEX Forecasting, Cost Variance & Reconciliation, Budgeting, Working Capital, Cash Flow, Risk Management
- **Systems & Analytics:** SAP ERP, Advanced Excel, Power BI, Tableau, SQL, Python, Snowflake

WORK EXPERIENCE

POSCO International Corporation *(Largest resource developer and international trader in South Korea)*

Business Operations Analyst (FP&A / Strategy) Jul. 2024 – Jun. 2025

- Led long-term operational planning that contributed $245M in annual operating profit by defining operational KPIs and coordinating execution across Engineering, Operations, HSE, and IT teams to improve delivery performance and planning accuracy.
- Facilitated division-wide digital transformation for a 147-person organization, aligning Engineering, Operations, HSE, and IT teams to implement AI- and ML-enabled automation initiatives, including E&P Data Lake and predictive maintenance tools, increasing adoption and accelerating decision-making.

Financial Analyst (CAPEX/Project Finance) Jan. 2021 – Jun. 2024

- Managed full-cycle financial and operational controls for a $600M offshore EPCIC project (70% of company profit), aligning Operations, Logistics, Procurement, Finance, Compliance, and partner companies to ensure on-time project delivery.
- Conducted CAPEX forecasting, variance analysis, and KPI reporting to improve resource planning accuracy, enabling a 5% cost reduction and more data-driven investment decisions. Consolidated and reviewed the division's $1.6B annual budget as chief of staff to the Division Head.
- Maintained zero overdue invoices, audit issues, compliance risks, or turnover while leading a five-member finance team and coordinating 70+ global staff during dynamic environments of COVID-19 and a military coup.

Treasury Analyst (Trade Finance) Mar. 2020 – Dec. 2020

- Optimized working capital and cash flow by analyzing receivables and financing structures, reducing annual financing costs by $2.4M and accelerating the A/R cycle from 155 to 39 days across export transactions totaling $600M per month, including receivables factoring of $130M in collaboration with global banks and affiliates.

Enterprise Risk Analyst (Credit & Operations) Mar. 2014 – Feb. 2020

- Developed and maintained the company's first SAP-embedded credit allocation and default-prediction models, automating manual risk reviews using financial statements, payment history, and country-risk indicators. Improved credit assessment speed and consistency across 8,000+ international clients through system integration with IT teams.
- Reduced overdue receivables and inventory exposure by $102M (41% YoY) through KPI-driven monitoring and reporting dashboards. Extracted and reconciled large ERP datasets using SQL to automate risk and cost reporting workflows. Secured $25M in export insurance claims by partnering closely with sales teams to craft claim strategies, negotiate with insurers, and optimize workflows.

DATA ANALYTICS PROJECTS

Predictive Analytics for Uber Ride Cancellations & Revenue Optimization

- Analyzed 148K+ Uber ride records using EDA, regression, and XG Boost to identify key cancellation drivers and support operational and pricing decisions.

ETL Data Pipeline Development with Python & Snowflake (Cloud Data Platform)

- Built an end-to-end ETL pipeline in Python and SQL integrating multi-source data to support analytical modeling in Snowflake.

E-Commerce Customer Insights for Performance & CRM Strategy (Tableau Dashboards)

- Built Tableau BI dashboards for e-commerce customer behavior analysis, including RFM segmentation and early-stage conversion insights for CRM strategy.

AWARDS & CERTIFICATIONS

- CEO- and VP-selected Achievement & Discretionary Commendations, POSCO International (2024, 2022, 2018)
- Certified Public Accountant (CPA), Washington State; Foreign Exchange Manager (KITA); SQL Developer (K-Data)
